

Dear Mr Hatton.

My name is Michael Costaine. I am a proud Warlangurru man and a director the Warlangurru Aboriginal Corporation (WAC).

I worked with Buru and Mitsubishi on the 2 gas wells they fracked out here a few years ago. I had a job on site working with the contractors, a mob called Condor. Good people.

The work was really good, I enjoyed it and I also learned a lot.

I really hope that Mitsubishi can do some more work out there. I really enjoyed it Mr Hatton.

I feel with the water sampling that us mob did with people from Buru on site and after the wells, that them Buru people were looking after country with us and there was no problems. It was good.

People in Noonkanbah really need jobs. We are hoping this project with Mitsubishi now can keep going. I hope you can come and meet me in person Mr Hatton. Be good to talk to you.

Michael Costaine. -
