Re: Submission to the Inquiry

Dear Panel,

Please accept my personal submission to the WA Fracking Inquiry.

This submission comes in the form of a documentary film I made in 2016 about fracking in WA.

It provides an overview and background to the issue and will provide the panel with the chance to hear from the people on the frontline of the fracking threat in WA.

I will follow this submission with an official scientifically referenced submission from Lock the Gate.

This film is also available online at this link: <https://vimeo.com/192074102>

Yours faithfully,
