To the independent Fracking/CSG/Shale enquiry

Are you all aware that citizen's who know our country, the whole country, how it works from state to state, why every state is accountable to each other, the fact we are the 2nd driest continent in the world.

The fact that the people in our parliaments are NOT our government, they are a criminal organisation which illegally formed & incorporated our nations assets, have embezzled them & continue to deceive & commit treason & espionage against Australia.

All life in our country is depending on these enquiries to help the citizen's protect our country & all life in it.

Australia is one of the worlds most precious once protected nations for all living things, since 1990 but especially when the impostors enacted the code for war to create mass murder of our environment which is beyond belief & acts of corporatism terrorism, war crimes, frauds etc, the list is large.

Every nation in the world is under attack by these so called political corporatism terrorism members which we refer to as the UN army of total destruction, all Australian's think they are appealing to our government but until recently thought they were.

There is no good outcome from these army members across the world, every UN agenda is an infiltrating, war crimes agenda to bring no peace, no solutions, nothing but harm upon those nations where there illegal members (UN army) have infiltrated.

Either way every one knows it is the worse form of so called technology driven globalisation resource destruction & abuses at the costs of all life, so i only appeal to those inquiry personal on a human bases, for all life to live & not just exist, for the future of generations, for the future of our Australia to give life to all living things.....under our true laws our Federal Constitution 1901 & all (real) referendum attached laws, not these impostors.....

Yours sincerely
