

Dear Mr Hatton.

I am the manger of the HACC centre here. We feed and look after our old people here at the HACC.

We need opportunities at the mine site with Mitsubishi for young people; the next generation of Noonkanbah. Young people are really bored here and they make bad choices. We need to get them up training and working.

You need to be aware that a lot of people away from our community this time of year too. It's a hard time of year.

Come up here Mr Hatton, come and talk me at the HACC building. I will welcome you here.

Judy Mulligan
